WEATHER PROBABILITIES.—For this section fair tonight and Friday; light variable winds.

## Weddings.

Miss Mary Strand Prentiss, daughter of Charles G. Prentiss, and William Leadbeater Speiden were married last night at 8 o'clock in the First Baptist Church, Washington. The Rev. Charles Winbiger, pastor of the church, officiated, assisted by the Rev. S. H. Greene, pastor of Calvary Baptist Church. The bride, who entered the church with her father, Mr. Charles G. Prentiss, wore a gown of white liberty satin, made with court train and tulle veil fastened with orange blossoms, and carried a shower of bride roses and lilies of the valley. The bride's sister, Miss Alice Maude Prentiss, in pink crepe trimmed with white lace medallions, preceded her as maid of honor, and the additional maids in attendance were Miss Minerva Prentiss, Miss Marian Speiden, Miss E. Jean Connell and Miss Jennie V. Kerr. All wore white organdie over white satin, and, like the honor maid, carried shower bouquets of La France roses. The ushers were Mr. Henry W. Sampson, Mr. Clarence C. Leadbeater, Mr. Daniel K. Jackson, and Mr. Avon M. Nevius.

Mr. Fred J. Whitehead and Miss Eliza H. Syme, daughter of Col. Syme, who lived for a long time at 201 North Washington street, were married at 2:10 p. m. at 18th street northwest, Washington, at one o'clock yesterday afternoon. Rev. Dr. Brooke, of this city, officiated.

Mr. Walter Davis, of Alexandria, and Miss Susie Moore, of Lynchburg, were married on Tuesday in Richmond.

## Bricks for Fuel.

Several people in this city having read of those in other cities soaking bricks in coal oil and igniting them for cooking and heating purposes, have been tempted to try the experiment themselves. Some are highly pleased with the results and think, so far as they are concerned, the fuel problem is solved. A gentleman at whose place of business a number of persons gathered during the day and the early part of the night took a piece of brick from the pavement and demonstrated the feasibility of burning the same should subsequent events deprive this community of coal. He placed the fragment of the brick, which was about three inches long and an inch and a half in thickness, in a tablespoonful of coal oil and after it had remained in the oil a few minutes took it out and ignited it. A blaze five or six inches high soon rose from it and it took six minutes for it to burn out. It was suggested that if things reached the worst and people had to return to the use of their fireplaces a "back log" could be procured and several pieces of saturated brick placed against it. Salmon brick is the variety to be used, but care should be observed in placing a saturated brick in a stove, as one of them will absorb a pint of oil and when ignited it will send up a blaze several feet high. It is said that the market is glutted with Beaumont, Texas, oil and that it is selling at 40 cents a barrel, or about one cent a gallon. Brick bats can be procured minus cost. Providence, it seems, always comes to the rescue in all emergencies.

## River Notes.

The puny John S. Beach is hauled out at the shipyard for examination of hull, caulking and repair work where needed. The Beach will shortly engage in the oyster carrying trade on the Potomac.

The steamer Samuel J. Pentz has gone to Baltimore and will go into the dry dock for repairs.

The large steam launch Crosby of the United States army quartermaster's service has been assigned to duty as the tender to Fort Washington, and she is expected to arrive at the fort at any time.

The work of overhauling the big bucket dredge Pugh at the ship yard is about completed, and she will leave within the next day or two for the Mattawoman flats to resume her work of widening the newly dredged channel there.

## Police Commissioners.

At the meeting of the Board of Police Commissioners last night Mr. Fisher offered a resolution that no officer be granted a vacation until he has served one year on the force, and it was passed. In a set of new rules which was presented and adopted it is provided that when a fire engine house shall repair to the house in question and ring the alarm bell and close the house. The old rule preventing policeman from participating in politics was abolished. In future policemen may run for any office within the gift of the people and still retain his position on the force. The new rules are only half as large in volume as those formerly in force.

## Sent Out of the City.

Edward Rancey, a former employee of the John Robinson circus, was arrested yesterday by Officer Allen for vagrancy. He was charged with begging money and with entering saloons and ordering drinks with no money to pay for the same. He promised to leave the city forthwith if the Mayor would release him when he was placed in the dock of the Police Court this morning. The Mayor allowed him to depart with the understanding that if found here ten minutes later he would be put on the chain gang.

## Eclipse of Moon Tonight.

The total eclipse of the moon which will take place tonight is not regarded as of much astronomical value. Prof. George A. Hill, of the national observatory, in Washington, has inspected the field in which the eclipse will take place and has found that there are no stars of importance whose occultation can be observed. The moon will enter the earth's shadow at 9:17 p. m.; total eclipse begins at 10:19 and will end at 11:48 p. m. The moon will leave the earth's shadow at 12:50 a. m. Friday.

M. B. Harlow vs. L. McKenzie's executors; final decree.

## Charged With Stealing a Stove.

James Minor, colored, was arrested this morning by Officer Knight charged with stealing an oil stove from Mr. Charles Griffin. The accused was brought before the Mayor this morning. It is thought that this is the third time Minor has been convicted of petit larceny. The records will be searched and if this is the case he will be sent to the grand jury; otherwise he will be fined \$10.

## Recovered the Shoes.

A young girl living in the southern part of the city took a pair of shoes from a box in front of Mr. Aaron Katz's store, corner of King and Royal streets, yesterday, and carried them to her home. Officer Allen, hearing of the theft, went to the house, procured the shoes and returned them to the owner. Mr. Katz refused to prosecute the offender.

## King Street Improvement.

More than five squares of vitrified brick roadway are now in use on King street, and the contractors are pushing the work of repaving the street. More granite-like pavements have recently been laid, and it is said that on many squares these modern sidewalks will soon form a large percentage over those made of brick.

## The Market.

Georgetown, Oct. 16.—Wheat 65a72c.

Monetary and Commercial.

New York, Oct. 16.—Stock values jumped with a rush this morning when the market opened as the result of a settlement of the anthracite coal strike. When the market opened here there was a rush to cover by frightened shorts and the opening prices were anywhere from one to nearly two points higher than last night's close. Reading and Pennsylvania were especially strong. After the first ten minutes the market quieted on the profit taking of those who anticipated events a few days ago. The tone was in the main firm and the buying looked good.

REM NANT DAY.

Remnants accumulate quickly; odds and ends gather thick and fast and continuously; other things are constantly getting soiled, mended, or otherwise unfit for regular stock. Our policy demands the immediate and complete clearance of all such goods. Nothing to do but sell them at a loss to accomplish this end. These great price reductions prevail on remnant days and buying opportunities are many and attractive. Every department in the house will be represented tomorrow—and special reference is made to a large purchase of Books, embracing nearly every department of literature, offered at less than half the usual prices.
